City of Munich Herzog-Wilhelm-Str. 15 80313 Munich Bavaria  
**MUNICH**

Dear Sir/Madam,

**RE: IMPLEMENTATION OF A GEOGRAPHICAL INFORMATION SYSTEM  
(GIS) IN LIVINGSTONE FOR TOWN PLANNING AT LIVINGSTONE CITY  
COUNCIL**

Reference is made to the above captioned subject.

Livingstone City Council in 2017 embarked on the creation of a Geographic Information System (GIS) under the Department of City Planning. The Department successfully digitized layout maps of the city and collected attribute data related to plot parcels in the city, to create a GIS database.

Following the successful creation of the database, the Council wishes to integrate the database with other departments within the Council so as to create an integrated land management system. It is for this reason that Livingstone City Council through German Cooperation (GIZ) engaged the City of Munich Municipality for support in Integrating the Land Management System through the implementation of a GIS project. The project involves the implementation of a Geographical Information System in Livingstone for Town Planning at Livingstone City Planning. The two municipalities will engage in a Memorandum of Understanding (MoU) that will be prepared by Livingstone City Council. The Council is committed to the implementation of the project.

This letter thereby, confirms the partnership between Livingstone City Council and the Municipality of Munich, as the two municipalities await signing of an MoU.

Yours Faithfully  
**LIVINGSTONE CITY COUNCIL**
